### Desert Britanical Garden's By Claudia Linney

Saturday, April 5, 2003, was a chilly brisk morning at the Desert Britanical Gardens there was allot to see enjoy. Those in attendance were Ruthann & George Elms, Steve, Claudia, Jessica & Stephanie Linney, Joe Fellin, Idros & Bob Wildman, Jan & John Peterson, Joel & Donna Young, plus 4 guests of the Young's, Ed and Dolores Stolinski, and Steve Nettle met with the group at the Fry's shopping center to see them off since he was not able to attend the gardens.

The group gathered at about 9ish and all went into to see the different sights at there leisure. There was a lot to see, the Cactus House had some very strange cacti my kids really liked the Octopus Cactus this one it had arms like an octopus. One of the highlight was the Butterfly House, there were hundred of butterflv of all different tvpes.

The Zebra seemed to be the most populated with its black body with white strips like a zebra. We were even able to see a nocturnal butterfly that's very rare to see since they only fly at night. The butterflies feed on oranges and Gatorade. Another beautiful sight was the wild flower trail it was a little too early for the blooming of all the wildflowers but still made for a splendid sight.

After the garden we were headed off to Papago Park for a picnic lunch we had a Ramada right by the rock that people climb. We all brought our own lunch and great conversation. A big thanks to George and Ruthann for a great tour.
