OFFICIAL PUBLICATION OF THE
EAST VALLEY MODEL T CLUB

Volume 1 Issue 4
June and July 2004

President Message
By Steve Linney

The summer is upon us but not too hot to take out the T for a ride at night. The club has our new patches and name badges thanks to Joe Fellin for all of his hard work they are very nice he has spent many hours them and we would like to let him know how much we appreciate all his hard work. If you have not received your name badge please come to a meeting or a club function to get them. We are asking a \$2.00 donation per badge to the club.

The calendar is a little sparse during the summer months but I hope everyone can attend the functions planned. I'm sorry that we missed the breakfast in June we were out of town.

On a personal note any one interested in attending Long Beach Swap Meet give me a call.

Morning Victuals at Little Mesa Cafe
by Lizzie Jane Peterson

Well, here we go again. Several of us vintage girls enjoyed an outing today (May 15, 2004) in East Mesa with the whippersnappers who dote on us. I saw **Lickety-Split Linney** in her tangerine finery, **Celicia Center-Door Stolinski** with her oval eyeglass all shined up, and youngster **Clementine Coupe Diehl** with her newfangled stylish look. Two of us from the regal **Tudor** family stood side to side, **Theresa Hardtop Graton** and me; I couldn't believe how fancy Theresa was decked out with new grey striped side panels, seats, and headliner! Wow! No wonder she was strutting her stuff! I'm green with envy--see my pin striping.

While we girls were looking each other over and being looked over by the human population, our chauffeurs/mechanics/spouses/etc. were getting refueled in the "Little Mesa Cafe." Present were **Bert Diehl, Steve & Jessica Linney, Dolores & Ed Stolinski, George Elms, Mary & Jerry Griffin, John & Jan Peterson, and Lynn & Austin Graton**. Not a bad turnout for a fledling club. Everyone seemed to be pleased with their "petrol," and several decided to check out a thrift store near the site.

We girls are looking forward to meeting two newcomers: **Rosalie Roadster Griffin**, who's waiting for new shoes (buttontop?) and **Claribel Center-Door Fellin**, who is ready for a final fender fitting. Sounds as if several of the whippersnappers will be heading for yonder parts to get out of the heat of the summer. I imagine the rest of us will hibernate in our garages until cooler weather returns. Yawn! However, I hear rumors of possible moonlight outings. Keep an eye open.

THE HISTORY OF *The Original* CHARCOAL

In the 1920s, Henry Ford learned of a process for turning wood scraps from the production of Model T's into charcoal briquets. As a result, Ford built a charcoal plant.

E. G. Kingsford, a relative of Ford's, was instrumental in selecting the site for the new charcoal manufacturing plant. Later, Ford Charcoal was renamed Kingsford® Charcoal in his honor.

Today, the Kingsford Company remains the leading manufacturer of charcoal in the U.S. More than 1 million tons of wood scraps are converted into quality charcoal briquets every year.
